DESCRIPTION

- Breaker Points. 3 offset aggressive power breakers.
 These produce a "Demolition" effect and create micro cracks in the drilled material. Up to 25% FASTER.
- Centering tip. Ensures immediate spot drilling with pin point accuracy. Prevents skidding on smooth surfaces.
- · Enlarged rebar chamfers. Prevents side tip damage when hitting rebar
- Reduces the risk of the drill bit jamming when hitting rebar.
- Tapered shoulder design. Thinner shoulder towards drill tip for less friction providing for greater speed.
 Ideal for cordless hammers identified from its tapered shoulder geometry.
- · Reinforced flute. High volume flute geometry for optimum dust removal.

· Reinforced flute design (thicker core) gives: Full power transfer to the tip,

Lower vibrations.

Exceptional break resistance, less breakages and best durability.

- Made in Germany.
- FASTEST: New aggressive tip geometry with 3 chip breakers demolishes the concrete quicker and a tapered shoulder design minimises friction enabling the M2 drill bit to deliver faster drilling speed.
- DURABILITY: Rebar chamfers on the tip prevent side tip damage when hitting metal reinforcement and a thicker core body ensures higher power transfer, lower vibrations and less flute breakages
