DESCRIPTION

- The MILWAUKEE® HOLE DOZER™ is the jobsite workhorse that provides unstoppable durability through the most demanding applications.
- Multiple leverage points to remove material out of the holesaw for faster plug removal:
 - Deepest access for thick plugs.
 - Higher access for thin material.
 - Minimises downtime between cuts.
- New coating allows less friction and increases drilling speed.
- A 3.5 teeth per inch tooth design with a positive 10° tooth angle provides the following benefits:
 - Faster and more aggressive cut.
 - Improved heat dispersion during cutting ensures that the teeth stay sharper for longer.
 - Deeper curved gullets provide more efficient chip clearance preventing clogging and heat build up.
 - Special shaped tooth angle has less tendency to snag on thinner materials.
- This high quality holesaw range is the perfect solution for cutting all types of materials:
 - Steel up to 1000 N/mm² strength,
 - Stainless steel and acid resistant steel,
 - Non-ferrous metals,
 - Cast iron,
 - Aluminium,
 - Wood,
 - Medium density fibreboard (MDF),
 - Gypsum plasterboard,
 - Sandwich materials,
 - PVC.
